Projects

Print Shoppe

[React Js](#), [SASS](#), [HTML](#), [Firebase](#)

My first application built with React JS and Firebase. This app highlights my journey as a photographer and acts as a marketplace for prints from my collection.

[The Code](#) | [Live Version](#)

Delicious

[SASS](#), [HTML](#)

Delicious is a fully responsive three page PSD conversion. Using modern CSS layout tools, like Flex Box, allowed reduced media queries and a layout that is scaled to best fit the user's device.

[The Code](#) | [Live Version](#)

Trivia TV

[jQuery](#), [SASS](#), [HTML](#), [API](#)

Trivia TV is a fun and interactive trivia game using Trivia DB API to generate random pop culture questions.

About Me

Graduate of Juno College's Web Development Immersive Program, I am passionate about building responsive and accessible web applications using modern frameworks. I have a successful record of team-building, communication, organization and leadership.

Developer Experience

Freelance / [Web Developer](#)

June 2020 - Present, Toronto ON

- Working with a small team of developers to collaborate and create custom web applications for clients.
- Using modern frameworks like Gatsby JS, React JS and project management tools such as Trello to communicate tasks and project goals.
- Collaboration and version control using Git and Github.

Juno College / [Web Development Mentor](#)

May 2020 - Present, Toronto ON

- Providing one-on-one support to students attending JavaScript 101 and Web-Dev 101 courses
 - Communicating to students during Zoom Webinars using tools like Q & A and chat.
 - Debugging students' code online using CodePen.
 - Teaching students best practices and ways to debug their code independently.
-

Other Work Experience

Farmr / La Palma / Canoe / [Chef De Partie](#)

June 2017 - February 2020, Toronto ON

- Helped achieve Canada Top 100 List in two restaurants through consistent leadership, collaboration and organization.
 - Managed and trained over 30 kitchen staff.
 - Organized and scheduled catering orders for up to 200 people.
 - Collaborated with local farmers to support sustainable farming.
-

Education

Juno College of Technology / [Web Development Immersive](#)

February - June 2020, Toronto ON

Additional Courses

Juno College's Part-time Web Development (2019)
[Wes Bos' Beginner JavaScript](#) (2020)
[Complete jQuery](#) (2020)
[React Native Practical Guide 2020](#) (*in progress*)
